

MEME DAO

WHITEPAPER

The First True Defi Index Basket

What is Meme Dao?

Meme Dao is a diversified basket of cryptocurrencies providing exposure to top meme coins throughout the cryptocurrency market. Through a simple user interface, participants can participate in the ever-growing meme economy with one basket. All you need to do is deposit ETH, BTC, USDT or USDC and our protocol does all the procurement for you.

All Your Favorites

One Basket

Upon launch a select list of bluechip meme tokens will be selected as the initial group of which the basket will be comprised. At regular intervals, members of Meme Dao will vote on the addition or subtraction of new meme tokens via the Meme Dao governance model.

Decide Who's In And Who's Out

Each Meme Dao token acts a governance token to decide which meme token is allowed in the basket as well as what percentage of the basket it is allocated. Members also can decide to vote and remove meme tokens they feel are under performing. Votes are weighted based on the amount of Meme Dao tokens.

Seperate Chains

One Roof

For the first time ever you can invest in memes from different blockchains without lifting a finger. Meme Dao allows tokens to be added from Ethereum, Base, Solana, Binance Smart Chain, Polygon, Fantom etc. all within a single index basket. All you need to do is deposit crypto in your favorite coin and we take care of all the bridging necessary.

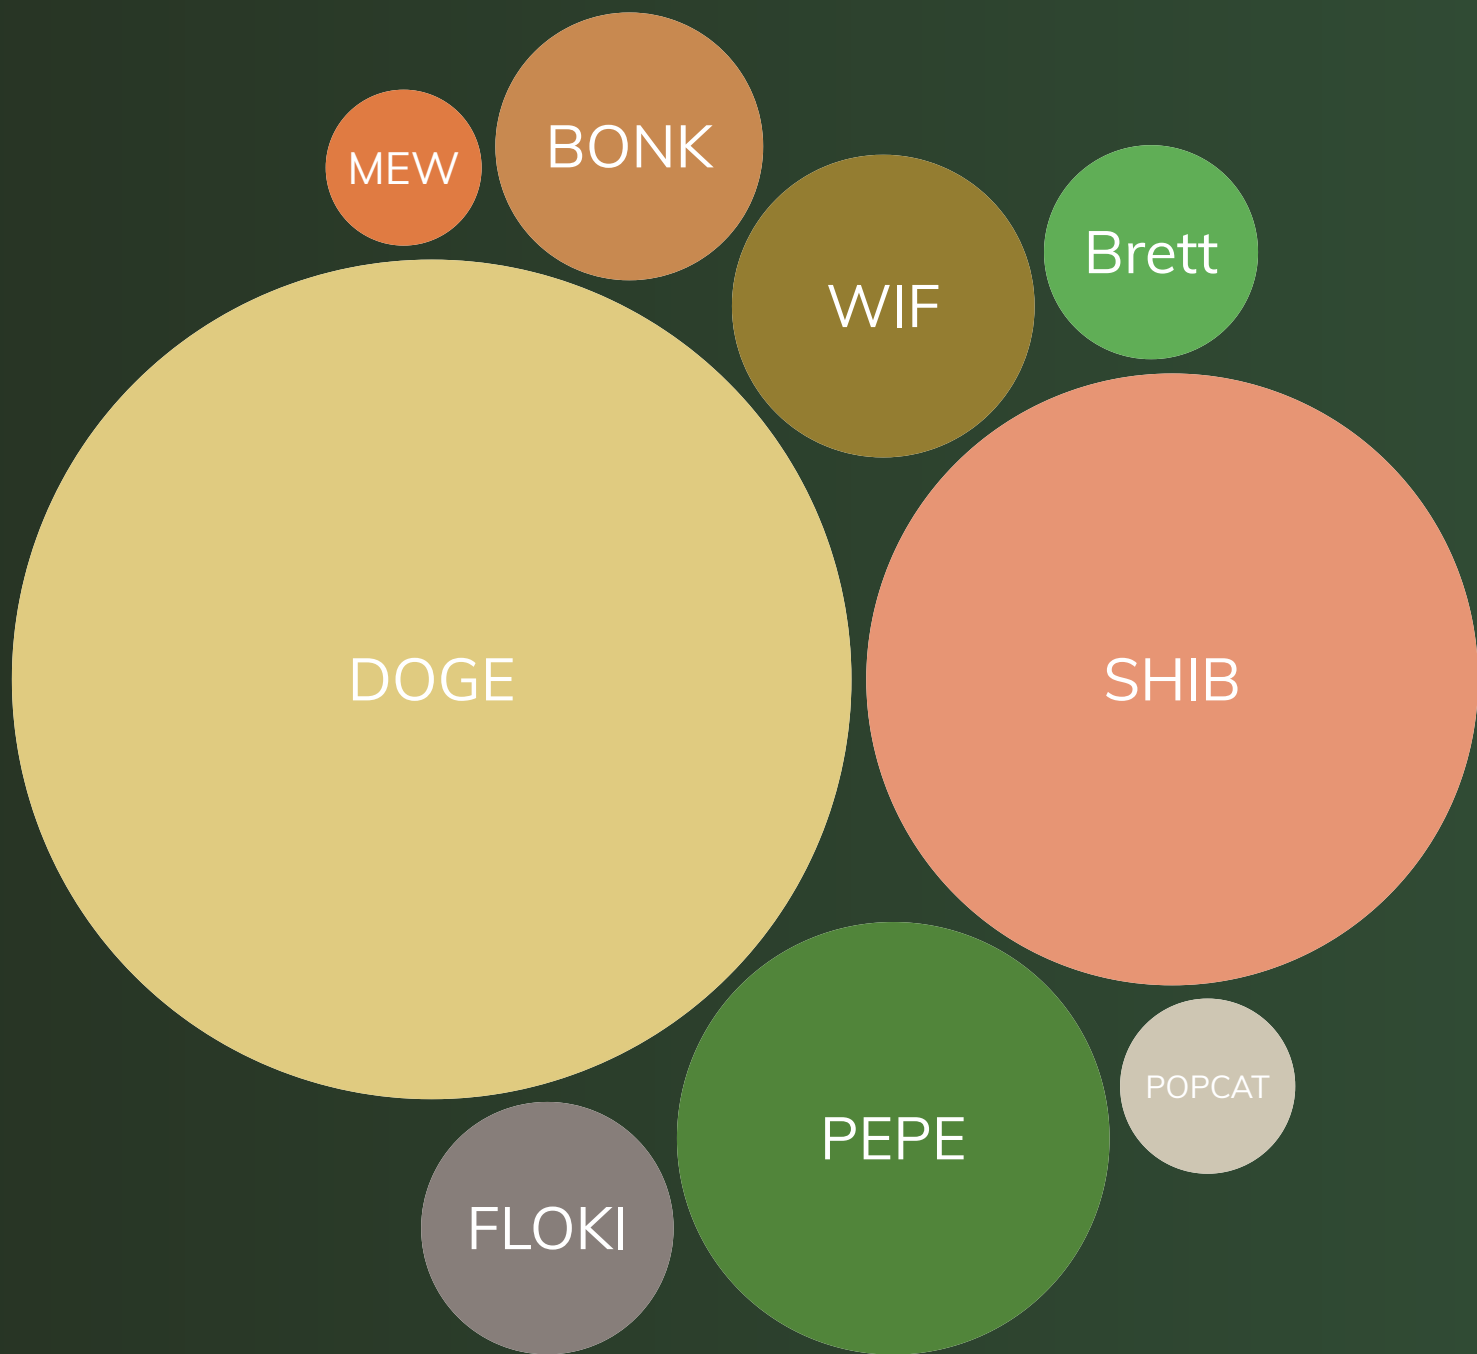

First Of It's Kind

Other rival index protocols only offer a small select group of whitelisted tokens on each chain. No ability to add custom tokens or ability to invest in tokens from across chains in one basket. We offer all of that and more..

The Value In Memes

Market Cap 51.7 Billion USD (October, 2024)

“Here’s Why Meme Coins Are Outperforming Altcoins This Cycle” - DailyHodl

MEMBERS ONLY

In order to participate in the Meme Dao index basket, you must be holding Meme Dao token. No exceptions.

Build Your Own Basket

Wanting something a little more custom with your own exposure and risk limits? With the Meme Dao launchpad, you can input any custom token of your choosing to add to your personalized basket. You can even decide whether or not you want to allow others to join your basket or keep all that upside to yourself.

Token Utility

BASKET ENTRY

To gain access to the Meme Dao basket, you must be holding Meme Dao token. The token will be available for pre-sale for 30 days before being launched via decentralized and centralized exchanges

BASKET GOVERNANCE

Holders of the Meme Dao shape the future of the basket. Members can vote on tokens to be added and removed from the fund at regular intervals. Each vote is weighted by the number of Meme Dao tokens held in their wallet.

TOKEN DEFLATION

A small management fee will be taken from funds entering and exiting the basket. All fees not used for gas on transactions will be automatically sent to a protocol for buybacks and burns of the Meme Dao Token.

STAKING

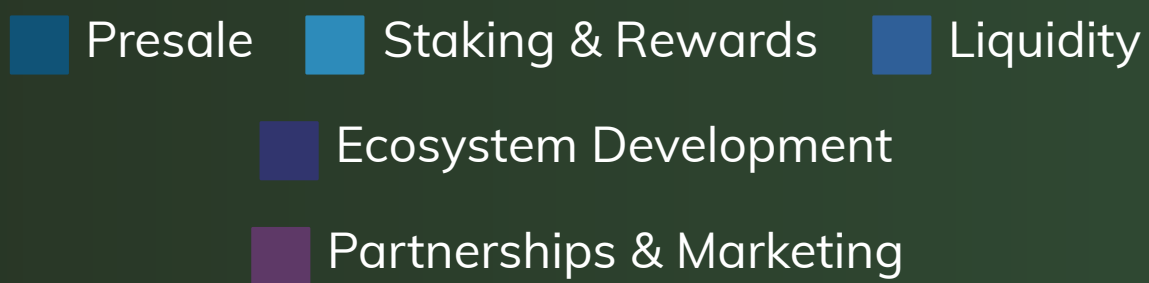

Meme Dao will allow native token staking via our website. Since Meme Dao token is your entrance to the fund, we know you'll be holding it. Why not stake and earn rewards, bolstering your governance influence all the while.

Disclaimer

The token issued by the Meme Dao is created for entertainment purposes only. The token does not represent a financial investment, and it does not entitle the holder to any ownership rights, profit sharing, dividends, or other financial benefits. The value of Meme Dao token may be highly volatile and thus carries risk of loss. Always do your own research. Participate at your own risk. Consult a financial advisor before engaging in cryptocurrency transactions.

Tokenomics

TOTAL SUPPLY 10,000,000,000

Roadmap

Phase 1 *Presale*

Meme Dao token presale is live for 30 days via our website at memedao.co. Tokens will be distributed at TGE.

Phase 2 *Token Launch*

Meme Dao token launches via decentralized exchanges across multiple blockchains via native Layer Zero integration.

Phase 3 *Expansion & Integrations*

As anticipation for the protocol launch builds, Meme Dao will be integrating in to various ecosystem protocols across multiple chains for maximum reach and exposure. **Additionally Meme Dao token will be listing on select bluechip centralized exchanges along the way.**

Phase 4 *Protocol Launch*

Meme Dao with all of it's features and functionalities goes live. Members have full accessibility to invest in the basket and take part in governance procedures. Also members may create their own custom baskets if so they choose.

Phase 4 *Expansion & Growth*

With the platform already built, the possibilities to expand in to new verticals are endless. We will be building a series of industry specific funds to across entire ecosystems, as well as adding Meme Dao token to even more of your favorite centralized exchanges for easy trading access.
